

Nadia Mansour

Systems / Cloud Engineer

nadia.mansour.demo@example.com | +961 71 884 220 | Jounieh, LB

Professional Summary

Systems engineer with 3 years in infrastructure support moving toward a DevOps focus. Comfortable with Docker and basic AWS, currently learning Kubernetes and Terraform.

Skills

Cloud: AWS (EC2, S3) **Containers:** Docker **CI/CD:** GitLab CI (basic) **Scripting:** Bash, some Python **OS:** Linux administration **Monitoring:** Nagios

Experience

Cloud Support Engineer — NetServe ISP

2021 – Present

- Maintained EC2 fleets and handled S3 backups for internal apps.
- Wrote Bash scripts to automate routine patching and log rotation.
- Containerized two internal tools with Docker; deployments still manual.

IT Systems Administrator — Cedar Logistics

2020 – 2021

- Managed Linux servers, DNS, and on-prem backups.
- Set up Nagios monitoring for core services.

Education

B.S. Computer Science — Lebanese University (2020)

Certifications

- AWS Certified Cloud Practitioner
