

Rami Khalil

Senior Mechanical Design Engineer

rami.khalil.demo@example.com | +961 70 556 778 | Beirut, LB

Professional Summary

Mechanical engineer with 9 years in HVAC and mechanical systems design for commercial and industrial projects. Led MEP design teams, delivered AED 200M+ of built projects, and is a licensed Professional Engineer with strong SolidWorks and ASHRAE expertise.

Skills

Design: SolidWorks, AutoCAD, Revit MEP, ANSYS (FEA) **HVAC:** Load calc, duct/pipe sizing, ASHRAE codes

PM: Tender design, BOQ, site supervision **Analysis:** Thermodynamics, fluid mechanics, GD&T

Experience

Senior Mechanical Engineer — Gulf MEP Consultants

2019 – Present

- Led HVAC and plumbing design for a 45-floor mixed-use tower in Dubai.
- Performed cooling load calculations and chilled-water plant selection per ASHRAE.
- Coordinated BIM clash detection in Revit MEP across architectural and structural models.
- Mentored 4 junior engineers and reviewed all tender deliverables.

Mechanical Design Engineer — Levant Engineering

2015 – 2019

- Designed ventilation and firefighting systems for hospitals and malls.
- Produced detailed shop drawings and BOQs in AutoCAD.

Education

M.E. Mechanical Engineering — American University of Beirut (2015)

B.E. Mechanical Engineering — American University of Beirut (2013)

Certifications

- Licensed Professional Engineer (Order of Engineers)
- LEED Green Associate
- PMP
